

# Thank You

# INVESTORS!

**Thank You** to the individuals, businesses and friends who invest to assure that trained leadership is available to serve the natural resource industry and our rural communities.

Investors share the vision that people are the most important resource. Over 700 investors proudly fund and collectively own the Leadership Program. Our investors understand the power of people working together to accomplish great things.

A high percentage of our investors are not one-time givers, but continue to support the program year after year. Their vision is that creating an ongoing leadership team is continuous - it builds on itself and results become more permanent as depth and maturity grow.

The Washington AgForestry Leadership Program enhances skills, enriches experiences and increases knowledge of leaders who work on a successful future for our industry.

The Leadership Program is a cooperative venture. It touches many people worldwide. In-kind services are provided by universities and businesses that provide seminar coordinators who develop powerful and effective programs.

These include:

- Washington State University
- University of Washington
- Pacific Lutheran University
- Whitman College
- Northwest Farm Credit Services
- Green Diamond Resource Company
- Washington State Dept. of Natural Resources
- Port of Seattle
- Weyerhaeuser Company
- Washington Forest Protection Association
- Energy Northwest

Members of Washington’s Congressional Delegation, U.S. Embassies and the Foreign Agricultural Services help develop national and international study travel seminar experiences for our leaders.

Ongoing support assures that this vital work of investing in leaders continues. To date, over 800 participants have graduated from the Leadership Program and are serving in key positions in communities, industry, associations, government, public service, and business.

The Washington Agriculture and Forestry Education Foundation is an IRS 501(c)(3) tax-exempt organization. All contributions are tax-deductible and are an investment that will benefit not only our natural resources, but our society as a whole.

We are grateful for your support. Thank you!
